<b>1 Introduction</b>	<b>1</b>	Tape removal .....	46
Anatomical Directions .....	1	Contraindications .....	46
Body Planes .....	1	Basics of the Decompressive and Compressive Techniques .....	48
Regions of the Body .....	2	Decompressive Technique .....	49
Terms of Position and Movement .....	3	Compressive Technique .....	50
Muscles of the Body .....	8	Decompressive and Compressive Techniques .....	51
Movements of the Body .....	9	Basic Concepts of the Correction Technique .....	52
<b>2 How NeuroMuscular Taping Works</b>	<b>15</b>	Musculoskeletal Correction Techniques...	53
Basic Functions		Muscles .....	53
of NeuroMuscular Taping .....	16	Joints .....	57
Anatomy and Physiology		Muscle Correction Technique .....	59
of Exteroceptive Skin Sensitivity .....	17	Ligament and Tendon Correction Technique .....	60
Exteroceptive sensitivity .....	20	Application - Achilles Tendon .....	61
Proprioception .....	24	Application - Tibial Collateral Ligament (Medial) .....	63
Central sensory pathways and their role in perception .....	26	Decompressive Joint Correction Technique .....	64
The epicritic pathway .....	26	Application - Elbow Joint .....	67
The protopathic pathway .....	28	Application - Shoulder Joint .....	68
Gate control theory .....	29	Application - Knee Joint .....	69
Hypothesis of a Neuronal Modulation Mechanism Induced		Joint Correction Technique:	
by NeuroMuscular Taping .....	31	Compressive Method .....	70
<b>3 Types of Application</b>	<b>33</b>	I-Shaped Application - Dynamic .....	71
Skin Thickness and Elasticity .....	33	I-Shaped Application - Combined Dynamic .....	72
Major Elasticity Lines of the Skin .....	36	I-Shaped Application - Static .....	73
Preparing the Tape .....	39	Y-Shaped Application - Static (Pulled Technique) .....	74
Cutting the tape .....	40	Y-Shaped Application - Static .....	75
Separating the tape from its backing paper .....	44	Circulatory/Lymphatic Correction Technique .....	76
General Principles for Application .....	45	Lymphatic Taping.....	76
Preparation of the body area to be treated .....	45	The Circulatory System .....	76
Patient's age .....	45		
Duration and number of applications	45		
Tape application .....	46		

The Lymphatic System .....	79
Lymphatic Application - Back of the Hand .....	84
Lymphatic Application - Knee .....	85
Lymphatic Application - Foot .....	87
Lymphatic Application - Anterior Neck .....	88
Lymphatic Application - Arm .....	89
Lymphatic Application - Achilles Tendon .....	90
Correction Technique for Creating Decompression .....	91
Skin Gathering Technique .....	92
Hole Technique .....	93
Crossover Technique .....	94
Skin Traction Technique .....	95
Functional Correction Technique .....	96
Functional Application - Knee Joint ...	97
Functional Application - Supinated Equinovarus Foot .....	99
<b>4 Head and Neck</b> .....	<b>101</b>
Occipitofrontalis .....	102
Tape Application.....	103
Orbicularis Oculi .....	104
Tape Application.....	105
Temporalis .....	107
Tape Application.....	108
Masseter .....	109
Tape Application.....	110
Lateral Pterygoid .....	112
Tape Application .....	113
Anterior Neck Muscles .....	114
Tape Application.....	116
Scalenus Anterior .....	118
Tape Application .....	119
Scalenus Posterior .....	120
Tape Application.....	121
Posterior Neck Muscles .....	122
Tape Application.....	124
Splenius Capitis .....	126
Tape Application.....	127
Splenius Cervicis .....	129
Tape Applications .....	130
Sternocleidomastoid .....	131
Tape Application.....	132

<b>5 Shoulder and Shoulder Girdle</b> .....	<b>135</b>
Trapezius .....	136
Descending Part of the Trapezius - Tape Application.....	138
Transverse Part of the Trapezius - Tape Application.....	139
Ascending Part of the Trapezius - Tape Application.....	140
Levator Scapulae .....	141
Tape Application.....	142
Serratus Anterior .....	143
Tape Application.....	144
Rhomboid Minor .....	146
Tape Application.....	147
Rhomboid Major .....	148
Tape Application.....	150
Pectoralis Major .....	152
Tape Application.....	154
Pectoralis Minor .....	155
Tape Application.....	157
Latissimus Dorsi .....	158
Tape Application.....	159
Deltoid .....	161
Tape Application.....	163
Supraspinatus .....	165
Tape Application.....	166
Teres Major .....	167
Tape Application.....	169
Teres Minor .....	170
Tape Application.....	171
Infraspinatus .....	172
Tape Application.....	173
Subscapularis .....	174
Tape Application.....	175
Biceps Brachii .....	177
Tape Application.....	178
Triceps Brachii .....	180
Tape Application.....	181
<b>6 Trunk and Abdomen</b> .....	<b>183</b>
Diaphragm .....	184
Tape Application.....	185
Thoracic Part of the Iliocostalis Lumborum .....	189
Tape Application.....	190
Lumbar Part	

of the Iliocostalis Lumborum .....	192	Tape Application.....	250
Tape Application.....	193	Small Muscles of the Hand .....	251
Multifidus Lumborum .....	196	Tape Application.....	252
Tape Application.....	197	<b>8 Hip and Lower Limb</b> .....	<b>257</b>
Semispinalis Thoracis .....	198	Quadratus Lumborum .....	258
Tape Application.....	199	Tape Application.....	259
Rectus Abdominis .....	200	Iliopsoas .....	261
Tape Application.....	201	Tape Application.....	262
Internal Oblique .....	202	Sartorius .....	265
Tape Application.....	203	Tape Application.....	266
External Oblique .....	205	Pectineus .....	268
Tape Application.....	206	Tape Application.....	269
<b>7 Upper Limb</b> .....	<b>209</b>	Adductor Muscles .....	270
Coracobrachialis .....	210	Tape Application.....	271
Tape Application.....	211	Piriformis .....	276
Brachialis .....	212	Tape Application.....	277
Tape Application.....	213	Gluteus Maximus .....	278
Pronator Teres .....	214	Tape Application.....	279
Tape Application.....	215	Tensor Fasciae Latae .....	281
Flexor Carpi Radialis .....	217	Tape Application.....	282
Tape Application.....	218	Gluteus Medius and Gluteus Minimus	284
Palmaris Longus .....	219	Tape Application.....	285
Tape Application.....	220	Hamstring Muscles .....	288
Flexor Carpi Ulnaris .....	222	Tape Application.....	289
Tape Application.....	223	Quadriceps Femoris .....	294
Flexor Digitorum Profundus .....	225	Tape Application.....	295
Tape Application.....	226	Tibialis Anterior .....	301
Pronator Quadratus.....	228	Tape Application.....	302
Tape Application.....	229	Gastrocnemius .....	305
Brachioradialis .....	230	Tape Application.....	306
Tape Application.....	231	Soleus .....	308
Extensor Carpi Radialis Longus .....	232	Tape Application.....	309
Tape Application.....	233	Tibialis Posterior .....	311
Extensor Carpi Radialis Brevis .....	235	Tape Application.....	312
Extensor Digitorum .....	236	Fibularis (Peroneus) Longus, Brevis	
Tape Application.....	237	and Tertius .....	313
Extensor Carpi Ulnaris .....	239	Tape Application.....	314
Tape Application.....	240	Flexor Hallucis Brevis .....	316
Supinator .....	241	Tape Application.....	317
Tape Application.....	242	Flexor Digitorum Brevis .....	318
Extensor Pollicis Longus .....	243	Tape Application.....	319
Tape Application.....	244	Flexor Digitorum Longus	
Abductor Pollicis Brevis .....	246	and Hallucis Longus .....	321
Tape Application.....	247	Tape Application.....	322
Adductor Pollicis .....	249	Abductor Hallucis.....	323

Tape Application.....	324	Tape Application.....	349
Extensor Digitorum Brevis		Epicondylitis .....	350
and Hallucis Brevis .....	325	Tape Application.....	351
Tape Application.....	326	Carpal Tunnel Syndrome .....	354
Extensor Hallucis Longus .....	327	Tape Application.....	355
Tape Application.....	328	Lumbar Spine Pain Syndromes .....	357
Extensor Digitorum Longus .....	329	Tape Application.....	358
Tape Application.....	330	Sciatica .....	359
Plantaris .....	331	Tape Application.....	360
Tape Application.....	332	Gonarthrosis .....	361
<b>9 Some Primary Conditions</b>	<b>333</b>	Tape Application.....	362
Cervical Spine Pain Syndromes .....	334	Calcaneal Spur .....	364
Tape Application.....	335	Tape Application.....	365
Forward Shoulder .....	337	Plantar Fasciitis .....	366
Tape Application.....	338	Tape Application.....	367
Shoulder Impingement Syndromes .....	340	<b>Frequently Asked Questions</b>	<b>369</b>
Tape Application.....	341	<b>Recommended Reading</b>	<b>372</b>
Adhesive Capsulitis .....	348		

In the text, before each tape application, the extension of the part to be treated is indicated with the symbol  and the position of the patient with the symbol
